

Sahan Karunarathne

Product & operations professional with 5 years across UX design, product strategy, and cross-functional delivery. I've driven product decisions end-to-end, from user research and design through roadmap and prioritization, most recently as COO, setting product direction for SaaS and AI-driven platforms.

PROFILE

I build and ship products, from early UX and research through strategy and prioritization. Over 5 years I've worked across the full product lifecycle for AI and SaaS platforms, taking ownership from user needs through to delivery. I've carried this end-to-end approach into acqui-hire style engagements, building teams that transitioned smoothly into international clients.

PROFESSIONAL BACKGROUND

Operations Manager — Nanthi Ventures Inc (Product: ledgerpro.ai) *Dec 2025 – Jul 2026*
Toronto, Canada (Remote)

Owned product design and delivery for LedgerPro, a cloud-based accounting platform for accounting firms with built-in local tax and payroll compliance. Took the payroll module from roadmap through delivery, and led its core product launch into the Indonesian market, leading UX and operations across a distributed team along the way.

UX Designer & Operations — Oncotech Nordic AB *Oct 2024 – Dec 2025 Sweden (Remote)*

- Designed UX for AI-powered early cancer and diabetes screening products, including Ophtascan — the world's first clinically tested on-demand screening system
- Managed operational workflows supporting product delivery, team coordination and process management, contributing to a mission to make cancer detection more affordable and accessible worldwide

Co-Founder & COO — talport (Transitioned the team to a client through an acqui-hire-style engagement)
Mar 2025 – Dec 2025 Colombo, Sri Lanka

AI-driven platform that aggregates, ranks, and deeply vets hidden AI engineering talent from emerging markets and connects them to global companies. Lead product and operations.

Chief Operations Officer — huex Pvt Ltd (Built and transitioned teams to international clients through acqui-hire-style engagements) *Dec 2021 – Dec 2025 Colombo, Sri Lanka*

- Started on the product side, working closely with development and design teams and directly with customers to design and ship products across a range of industries.
- Took ownership of business operations as COO, overseeing software products and services delivered to clients.

- Progressed from UX Intern to COO over 4+ years: UX Intern → Associate UX Designer → Intermediate UX Designer → Design Operations Manager & UX Designer → Chief Operations Officer.

Web Development Intern — Revoise *Jan 2021 – Jun 2021*
Gampaha, Sri Lanka
